PH.D. CONCENTRATIONS

Concentrations for Ph.D. and M.D.-Ph.D. learners are available. These open concentrations are available to any eligible learner. To earn the concentration, learners must complete the stated concentration requirements.

- Applied Biostatistics (ABIOT) - Concentration (https://catalog.mayo.edu/graduate-biomedical-sciences/phd-concentrations/applied-biostatistics/)
- Applied Mixed Methods (AMM) - Concentration (https://catalog.mayo.edu/graduate-biomedical-sciences/phd-concentrations/applied-mixed-methods/)
- Artificial Intelligence in Healthcare (AIHC) - Concentration (https://catalog.mayo.edu/graduate-biomedical-sciences/phd-concentrations/artificial-intelligence-in-healthcare/)
- Cancer (CAN) - Concentration (https://catalog.mayo.edu/graduate-biomedical-sciences/phd-concentrations/cancer/)

Eligible learners may declare concentration using the appropriate form. See Concentration Declaration Procedure. By declaring a concentration through this procedure, the concentration will appear on a student's academic transcript. Students may only declare established concentrations and must be in a degree seeking program to declare a concentration. Students may only declare one official concentration.
